

## Nebraska's Energy Code: Introduction to the 2018 International Energy Conservation Code

The Midwest Energy Efficiency Alliance, in partnership with the Nebraska Code Officials Association and the Nebraska Department of Energy and Environment, is hosting an interactive virtual energy code training. Led by building energy efficiency expert, and former code official and active home builder, Matt Belcher, the training will provide an overview of the 2018 IECC residential provisions.

### Who should attend:

This training is designed for home builders working in the state of Nebraska, but may also be useful to code officials, subcontractors, supply houses, energy raters, designers and others working in residential construction.

### In this training, you'll learn about:

- The requirements of the 2018 IECC
- Building energy efficiency best practices
- Building science principles
- Marketing energy efficient homes and business benefits
- And much more!

### Training Dates:

- Thursday, April 29, 2021, 11:30 a.m. – 1:30 p.m. CT
  - Register at:  
<https://zoom.us/meeting/register/tJkduisrjljEtXAKdHJEDclMcrKwM2P8Epi>
- Tuesday, May 4, 2021, 3:30 – 5:30 p.m. CT
  - Register at:  
<https://zoom.us/meeting/register/tJ0lce6przgtGtwxUZr6oyWpVHaEjkgcCAKT>

### About the program:

The Nebraska Energy Codes Training Program is designed to prepare the Nebraska workforce for upcoming changes in construction best practices – from the adoption of the 2018 IECC as the statewide energy code, as well as advanced building technologies that are becoming more widely available and increasingly incorporated into projects.
